Art Unit: 3682

This application is in condition for allowance except for the following formal matters:

The amendment to the specification has not been entered as it does not comply with 37

CR 1.121(b)(1)(i) which requires:

(i) An instruction, which unambiguously identifies the location, to delete one or more paragraphs of the specification, replace a paragraph with one or more replacement paragraphs, or add one or more paragraphs;

The amendment does not identify the location in the specification of the paragraph to be amended. Reference to the location of the paragraph number in the US Publication does not unambiguously identify the location in the application specification.

The abstract of the disclosure is objected to because of the inclusion of legal phraseology "means" and "said". Correction is required. See MPEP § 608.01(b).

The listing of references in the specification is not a proper information disclosure statement. 37 CFR 1.98(b) requires a list of all patents, publications, or other information submitted for consideration by the Office, and MPEP § 609.04(a) states, "the list may not be incorporated into the specification but must be submitted in a separate paper." Therefore, unless the references have been cited by the examiner on form PTO-892, they have not been considered.

Figures 3a-3c and 4b should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required

Art Unit: 3682

corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claims 9 and 10 directed to an invention non-elected with traverse in the reply filed on October 27, 2006. Applicant should cancel the noted claims or take other appropriate action (37 CFR 1.144) in response to this action. Failure to take action during this period will be treated as authorization to cancel the noted claims by Examiner's Amendment and pass the case to issue.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thomas R. Hannon whose telephone number is (571) 272-7104. The examiner can normally be reached on Monday-Thursday (8:30-7:00).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Richard Ridley can be reached on (571) 272-6917. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
